IMPORTANT NOTICE – PLEASE READ

Customer Declaration

VAT on Energy Supplies

Energy supplied for non-domestic purposes has been subject to VAT at the standard rate since 1 July 1990. Energy supplied for domestic purposes is subject to VAT at 5% from 1 September 1997 (8% 1.4.94 - 31.8.97).

If part of the customer's energy supply is for qualifying use (i.e. Domestic or Charitable non-business) then the certificate overleaf should be completed and returned to Yü Energy.

If 60% or more of the energy supply is for qualifying use then the whole supply will be subject to VAT at 5%. If less than 60% of the energy supply is for qualifying use then 5% VAT will be applied to that percentage of the supply. Please show the actual qualifying use overleaf.

Notwithstanding the above, any customer who uses 33 kWh of electricity or less daily, or 145 kWh or less of gas daily, will automatically be regarded as domestic and the energy supply will be subject to VAT at 5%.

The declaration submitted will remain in force until you advise otherwise. It is your responsibility to inform Yü Energy of any change in circumstances affecting the declaration. The declaration will be applied to the next and future bills following receipt by Yü Energy, but not bills previously rendered. If you are a charity and unsure of what constitutes non-business activity, you should contact Customs and Excise and/or read VAT leaflet 701/1 Charities.
